. In the Specification:

On page 6, lines 25-30, please revise as follows:

- glv = difference between the wavelength upper lower multispectral band 2 and the wavelength lower upper multispectral band 1;
- g2v = difference between the wavelength upper lower multispectral band 3 and the wavelength lower upper multispectral band 2; and
- g3v = difference between the wavelength upper lower multispectral band 4 and the wavelength lower upper multispectral band 3.
